

# Crystal

*Durable, metal cross-linked acrylic floor finish*

This versatile acrylic floor finish was designed to offer excellent gloss, durability and repair ability in one easy-to-use finish. Its unique polymer design provides high responsiveness to both burnishing and spray buffing procedures. It applies so easily it is almost "goof proof," and it dries quickly and evenly to leave behind an incredible "wet-look" shine.

## Directions

Complete directions on product label  
Always apply to a floor sealed with a high quality floor sealer. Frame the area to be finished and apply with a clean, rayon/cotton blend mop. Dry time is approximately 30 minutes. Allow seal to set for a minimum of 10 minutes before using a fan is to be used to reduce drying time.

### Maintenance:

Dust mop daily using *Clear Attractions Dust Mop Treatment*. Dirt and dust can abrade and scratch your finishes, destroying their natural luster.

Damp mop regularly with *Excel Floor Cleaner*. The highest gloss comes only from clean floors. Dirt acts as a barrier to light reflection, causing your floors to look dull and lifeless.
