TOTAL SOLUTIONS®

GROUND MAINTENANCE

SURFACTANT

Water Soluble Spreader and Wetting Agent

- INCREASES THE EFFECTIVENESS OF CHEMICAL SPRAYS

DESCRIPTION

This surfactant is a specially formulated spreading and wetting agent designed to increase the effectiveness of agricultural chemical sprays. It reduces the surface tension of fertilizer and pesticide solutions, allowing them to penetrate into the soil quickly, for less run-off and waste. The great wetting action also assures even and thorough coverage of foliage and reduced wash-off of expensive chemicals. Proper use of this surfactant will provide optimum performance and cost effectiveness of agricultural chemical applications.

DIRECTIONS

Add 1 gallon of surfactant per 1000 gallons of mixed spray solution, or follow the manufacturer's recommendations on the chemical label.

DISPOSAL

Offer empty container for recycling. If recycling is not available, discard container in trash.
