# SAFETY DATA SHEET

CleaningChemicalSupply.com | 1.888.678.7489 | Fax: 877.978.7489

# SECTION 1) CHEMICAL PRODUCT AND MANUFACTURER'S IDENTIFICATION

**Product ID:** 496885

Product Name: ZenaLube Red

 Revision Date:
 Jun 12, 2020
 Date Printed:
 Jun 12, 2020

 Version:
 2.0
 Supersedes Date:
 Nov 18, 2016

Distributor's Name: CleaningChemicalSupply.com

Address: PO Box 670925 Marietta GA 30066

Emergency Phone: 1-800-535-5053
Information Phone Number:(888) 678-7489
Product/Recommended Uses:Lubricant

# **SECTION 2) HAZARDS IDENTIFICATION**

# Classification

Aerosols - Category 1

Gases Under Pressure - Liquefied Gas

Aspiration Hazard - Category 1

Skin Irritation - Category 2

Eye Irritation - Category 2

Carcinogenicity - Category 1

Reproductive Toxicity - Category 2

Specific Target Organ Toxicity - Repeated Exposure - Category 2

# **Pictograms**

# Signal Word

Danger

# **Hazardous Statements - Physical**

H222 - Extremely flammable aerosol

H280 - Contains gas under pressure; may explode if heated

### **Hazardous Statements - Health**

H304 - May be fatal if swallowed and enters airways.

H315 - Causes skin irritation.

H319 - Causes serious eye irritation.

H350 - May cause cancer.

H361 - Suspected of damaging fertility.

H373 - May cause damage to organs through prolonged or repeated exposure.

496885 Page 1 of 8

# **Precautionary Statements - General**

- P101 If medical advice is needed, have product container or label at hand.
- P102 Keep out of reach of children.
- P103 Read label before use.

### **Precautionary Statements - Prevention**

- P210 Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking.
- P211 Do not spray on an open flame or other ignition source.
- P251 Do not pierce or burn, even after use.
- P201 Obtain special instructions before use.
- P202 Do not handle until all safety precautions have been read and understood.
- P280 Wear protective gloves, protective clothing, eye protection, and face protection.
- P264 Wash hands thoroughly after handling.
- P260 Do not breathe mist, vapors or spray.

# **Precautionary Statements - Response**

- P314 Get medical attention if you feel unwell.
- P308 + P313 IF exposed or concerned: Get medical attention.
- P301 + P310 IF SWALLOWED: Immediately call a POISON CENTER or doctor.
- P331 Do NOT induce vomiting.
- P305 + P351 + P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
- P337 + P313 If eye irritation persists: Get medical attention.
- P302 + P352 IF ON SKIN: Wash with plenty of soap and water.
- P332 + P313 If skin irritation occurs: Get medical attention.
- P362 + P364 Take off contaminated clothing and wash it before reuse.

### **Precautionary Statements - Storage**

- P410 + P412 Protect from sunlight. Do not expose to temperatures exceeding  $50^{\circ}\text{C}$  /  $122^{\circ}\text{F}$ .
- P405 Store locked up.
- P403 Store in a well-ventilated place.

# **Precautionary Statements - Disposal**

P501 - Dispose of contents and container in accordance with local, regional, national and international regulations.

| SECTION 3) COMPOSITION, INFORMATION ON INGREDIENTS |                                       |             |  |  |
|--|---------------------------------------|-------------|--|--|
| CAS  | Chemical Name                         | % By Weight |  |  |
| 0068476-86-8                                       | Petroleum gases, liquefied, sweetened | 27% - 44%   |  |  |
| 0008009-03-8                                       | PETROLATUM                            | 22% - 36%   |  |  |
| 0000110-54-3                                       | HEXANE                                | 5% - 11%    |  |  |
| 0064742-96-7                                       | HEAVY ALIPHATIC NAPHTHA               | 5% - 11%    |  |  |
| 0000067-64-1                                       | ACETONE                               | 4% - 8%     |  |  |
| 0063148-62-9                                       | SILICONE                              | 0.1% - 2%   |  |  |
| 0001330-20-7                                       | XYLENE                                | Trace       |  |  |
| 0000100-41-4                                       | ETHYLBENZENE                          | Trace       |  |  |

Specific chemical identity and/or exact percentage (concentration) of the composition has been withheld to protect confidentiality.

# **SECTION 4) FIRST-AID MEASURES**

# Inhalation

Remove source of exposure or move person to fresh air and keep comfortable for breathing.

496885 Page 2 of 8

If exposed/feel unwell/concerned: Get medical attention.

Eliminate all ignition sources if safe to do so.

#### **Eye Contact**

Remove source of exposure or move person to fresh air. Rinse eyes cautiously with lukewarm, gently flowing water for several minutes, while holding the eyelids open. Remove contact lenses, if present and easy to do. Continue rinsing for a duration of 15-20 minutes. Take care not to rinse contaminated water into the unaffected eye or onto the face. If eye irritation persists: Get medical advice/attention.

#### **Skin Contact**

Take off contaminated clothing, shoes and leather goods (e.g. watchbands, belts). Wash with plenty of lukewarm, gently flowing water for a duration of 15-20 minutes. If skin irritation occurs: Get medical advice/attention. Wash contaminated clothing before re-use.

IF exposed or concerned: Get medical advice/attention.

#### Ingestion

Immediately call a POISON CENTER or doctor. Do NOT induce vomiting. If vomiting occurs naturally, lie on your side, in the recovery position.

### Most Important Symptoms/Effects, Acute and Delayed

No data available.

# Indication of Immediate Medical Attention and Special Treatment Needed

No data available.

# **SECTION 5) FIRE-FIGHTING MEASURES**

#### Suitable Extinguishing Media

Dry chemical, foam, carbon dioxide. Water spray may be useful in minimizing or dispersing vapors and to protect personnel. Carbon dioxide can displace oxygen. Use caution when applying carbon dioxide in confined spaces. Simultaneous use of foam and water on the same surface is to be avoided as water destroys the foam. Sand or earth may be used for small fires only.

Do not direct a solid stream of water of foam into hot, burning pools this may result in frothing and increase fire intensity.

### **Unsuitable Extinguishing Media**

No data available.

### Specific Hazards in Case of Fire

Contents under pressure. Keep away from ignition sources and open flames. Exposure of containers to extreme heat and flames can cause them to rupture often with violent force. Product is highly flammable and forms explosive mixtures with air, oxygen, and all oxidizing agents. Vapors are heavier than air and may travel along surfaces to remote ignition sources and flash back.

During a fire, irritating and highly toxic gases may be generated during combustion or decomposition. High temperatures can cause sealed containers to rupture due to a build up of internal pressures. Cool with water.

Empty Containers retain product residue which may exhibit hazards of material; therefore do not pressurize, cut, glaze, weld or use for any other purposes.

Container could potentially burst or be punctured upon mechanical impact, releasing flammable vapors.

# **Fire-Fighting Procedures**

Isolate immediate hazard area and keep unauthorized personnel out. Stop spill/release if it can be done safely. Move undamaged containers from immediate hazard area if it can be done safely. Water spray may be useful in minimizing or dispersing vapors and to protect personnel. Water may be ineffective but can be used to cool containers exposed to heat or flame. Caution should be exercised when using water or foam as frothing may occur, especially if sprayed into containers of hot, burning liquid.

Dispose of fire debris and contaminated extinguishing water in accordance with official regulations.

### **Special Protective Actions**

Wear protective pressure self-contained breathing apparatus (SCBA) and full turnout gear.

### **SECTION 6) ACCIDENTAL RELEASE MEASURES**

### **Emergency Procedure**

ELIMINATE all ignition sources (no smoking, flares, sparks or flames in immediate area).

Do not walk through released material.

Isolate hazard area and keep unauthorized personnel away. Remove all possible sources of ignition in the surrounding area. Notify authorities if any exposure to the general public or the environment or is likely to occur.

If spilled material is cleaned up using a regulated solvent, the resulting waste mixture may be regulated.

# **Recommended Equipment**

496885 Page 3 of 8

Wear liquid tight chemical protective clothing in combination with positive pressure self-contained breathing apparatus (SCBA).

#### **Personal Precautions**

Avoid breathing vapor. Avoid contact with skin, eye or clothing. ELIMINATE all ignition sources (no smoking, flares, sparks or flames in immediate area). Do not touch damaged containers or spilled materials unless wearing appropriate protective clothing.

#### **Environmental Precautions**

Stop spill/release if it can be done safely. Prevent spilled material from entering sewers, storm drains, other unauthorized drainage systems and natural waterways by using sand, earth, or other appropriate barriers.

### Methods and Materials for Containment and Cleaning up

Absorb liquids in vermiculite, dry sand, earth, or similar inert material and deposit in sealed containers for disposal.

# **SECTION 7) HANDLING AND STORAGE**

### General

Do not puncture or incinerate (burn) cans. Do not stick pins, nails, or any other sharp objects into opening on top of can. Do not spray in eyes. Do not take internally.

### **Ventilation Requirements**

Use in a well-ventilated place.

# Storage Room Requirements

Store and use in a cool, dry, well-ventilated area. Do not store above 120°F. See product label for additional information.

# **SECTION 8) EXPOSURE CONTROLS/PERSONAL PROTECTION**

# **Eye Protection**

Wear safety glasses with side shields. Eyewash stations and showers should be available in areas where this material is used and stored.

#### **Skin Protection**

Use solvent-resistant protective gloves for prolonged or repeated contact.

### **Respiratory Protection**

Avoid breathing vapors. In restricted areas, use approved chemical/mechanical filters designed to remove a combination of particles and vapor. In confined areas, use an approved air line respirator or hood. A self-contained breathing apparatus is required for vapor concentrations above PEL/TLV limits.

# **Appropriate Engineering Controls**

Ventilation should be sufficient to prevent inhalation of any vapors.

# **SECTION 10) STABILITY AND REACTIVITY**

### Stability

Stable under normal storage and handling conditions.

### **Conditions to Avoid**

Avoid heat, spark, flame, direct sunlight and incompatible materials.

Dropping containers may cause bursting.

# **Incompatible Materials**

Avoid strong oxidizers, reducers, acids, and alkalis.

# **Hazardous Reactions/Polymerization**

Will not occur.

# **Hazardous Decomposition Products**

No data available.

496885 Page 5 of 8

### **SECTION 11) TOXICOLOGICAL INFORMATION**

### Skin Corrosion/Irritation

Causes skin irritation

### Serious Eye Damage/Irritation

Causes serious eye irritation.

### Carcinogenicity

May cause cancer.

#### **Germ Cell Mutagenicity**

No data available.

#### Reproductive Toxicity

Suspected of damaging fertility

# Respiratory/Skin Sensitization

No data available.

### Specific Target Organ Toxicity - Single Exposure

No data available.

# Specific Target Organ Toxicity - Repeated Exposure

May cause damage to organs through prolonged or repeated exposure.

#### **Aspiration Hazard**

May be fatal if swallowed and enters airways.

### **Acute Toxicity**

No data available.

### Likely Routes of Exposure

Inhalation, Ingestion, Skin contact, Eye contact

#### **Potential Health Effects - Miscellaneous**

0000067-64-1 ACETONE

The following medical conditions may be aggravated by exposure: lung disease, eye disorders, skin disorders. Overexposure may cause damage to any of the following organs/systems: blood, central nervous system, eyes, kidneys, liver, respiratory system, skin.

#### 0000100-41-4 ETHYLBENZENE

Is an IARC, NTP or OSHA carcinogen. Increased susceptibility to the effects of this material may be observed in people with preexisting disease of any of the following: central nervous system, kidneys, liver, lungs. Recurrent overexposure may result in liver and kidney injury. Studies in laboratory animals have shown reproductive, embryotoxic and developmental effects. WARNING: This chemical is known to the State of California to cause cancer.

0001330-20-7 XYLENE

Increased susceptibility to the effects of this material may be observed in people with preexisting disease of any of the following: bone marrow, cardiovascular system, central nervous system, kidneys, liver, lungs. Recurrent overexposure may result in liver and kidney injury. High exposures may produce irregular heart beats. Canada classifies Xylene as a developmental toxin as high exposures to xylenes in some animal studies have been reported to cause health effects on the developing fetus/embryo. These effects were often at levels toxic to the adult animal. The significance of these effects to humans is not known. Repeated or prolonged skin contact may cause any of the following: irritation, dryness, cracking of the skin.

### **Chronic Exposure**

0000100-41-4 ETHYLBENZENE

CARCINOGENIC EFFECTS: Ethyl Benzene has been listed by IARC as Group 2B, Possibly Carcinogenic to

Humans. TERATOGENIC EFFECTS: Ethyl Benzene has been Classified as POSSIBLE for humans.

#### 0000067-64-1 ACETONE

LC50 (male rat): 30000 ppm (4-hour exposure); cited as 71000 mg/m3 (4-hour exposure) (29)

LC50 (male mouse): 18600 ppm (4-hour exposure); cited as 44000 mg/m3 (4-hour exposure) (29)

LD50 (oral, female rat): 5800 mg/kg (24)

LD50 (oral, mature rat): 6700 mg/kg (cited as 8.5 mL/kg) (31)

LD50 (oral, newborn rat): 1750 mg/kg (cited as 2.2 mL/kg) (31)

LD50 (oral, mouse): 3000 mg/kg (32,unconfirmed)

LD50 (dermal, rabbit): Greater than 16000 mg/kg cited as 20 mL/kg) (30)

496885 Page 6 of 8

LC50 (male rat): 38500 ppm (4-hour exposure); cited as 77000 ppm (271040 mg/m3) (1-hour exposure) (15)

LC50 (rat): 48000 ppm (4-hour exposure) (16)

LC50 (rat): 73680 ppm (260480 mg/m3) (4-hour exposure) (n-hexane and isomers) (1,3)

LD50 (oral, 14-day old rat): 15840 mg/kg (3) LD50 (oral, young rat): 32340 mg/kg (3) LD50 (oral, adult rat): 28700 mg/kg (3,16)

# **SECTION 12) ECOLOGICAL INFORMATION**

# **Toxicity**

Harmful to aquatic life with long lasting effects.

### Persistence and Degradability

No data available.

### **Bio-Accumulative Potential**

No data available.

### Mobility in Soil

No data available.

### **Other Adverse Effects**

No data available.

# **SECTION 13) DISPOSAL CONSIDERATIONS**

# **Waste Disposal**

Under RCRA, it is the responsibility of the user of the product, to determine at the time of disposal whether the product meets RCRA criteria for hazardous waste. Waste management should be in full compliance with federal, state, and local laws.

Empty containers retain product residue which may exhibit hazards of material, therefore do not pressurize, cut, glaze, weld or use for any other purposes. Return drums to reclamation centers for proper cleaning and reuse.
